

## Polar Caravan

Accompanied by her 7 boreal sentinels and Inuit acrobats, Nanuq the great white bear has the task of undertaking a journey beyond the ice to plead her cause with the world of machines to find a solution and a refuge to this announced catastrophe... In the manner of the nomads of the great north, the polar caravan will propose boreal stops made of ice and dreams, making us discover a wonderful world. The polar scouts will dance with the foggy makers, accompanied by the gypsies of the ice. They will transport us with their music between heaven and earth, to the stars and the great northern spaces, not very far from the constellation borealis called the great bear. Ladies and gentlemen, we invite you to do the same: follow the Great Bear, Let the show begin, let the light spread!
